BA (Hons) Photography Level 6 (Year 3) Full time		
Module Title	Credits	Module Description
Practice in Context 3	20	<p>The content of this module differs for each student, as each undertakes a research project into a self-selected topic designed to help them make sense of their own specialist area of studio practice in terms of culture, context and critical theory. Working closely with an individual supervisor, students are guided to select a research topic that is both manageable and appropriate to their studio interests and are helped both to locate and organise relevant sources and to construct a critical position informed by theory. The project is an exercise in largely self-directed academic research, but students receive tailored individual support and are given a series of target dates for reaching set stages of the project (e.g., delivery of title and synopsis, first draft, and so on) to ensure they stay on track as they progress towards the final deadline.</p>
Practice 5	30	<p>The nature of this module is cumulative. It demands that students reflect upon and recognise strengths, areas of specialist interest and ability,</p>

		<p>areas for further exploration and development, or initiate as a result of previous or forming conceptual or technical development.</p> <p>There is no prescriptive set themed project for this module. Rather, through self-diagnosis of engagement, previous projects and experiences, a self-written project is initiated which enables the progression with the development of an individual and purposeful photographic practice. The work through the module will result in demonstrating an awareness, definition and therefore direction for students as an individual photographic practitioner.</p> <p>All work is required to be supported by relevant research to provide cultural and professional evaluation of contexts for individual practice and employment.</p> <p>Activities and content may include:</p> <ul style="list-style-type: none"> <li>• Evaluative peer seminars</li> <li>• Continued refinement of use of traditional and digital camera equipment</li> <li>• Meaning and metaphor in photography</li> <li>• Refinement of digital and darkroom print</li> <li>• Development of exhibition planning and outcomes</li> <li>• Working collaborative with others to create visual outcomes</li> </ul>
Professional Practice 2	10	<p>Students will revisit and refine their Professional Development Plan and produce additional material to support the generation of their graduate portfolio including the development of social media and web presences, business identity (where appropriate) ensuring they appropriately prepared to launch their professional careers.</p> <p>A series of visiting speakers, ranging from artist to professionals from creative organisations and education, will provide insightful advice into areas such as:</p> <ul style="list-style-type: none"> <li>• The employment landscape (portfolio careers, the gig economy etc)</li> <li>• Copyright Law, licensing, contracts, T&amp;C's, insurance, taxation, NI How, why, what and when?</li> <li>• The differences between Self-employment and permanent employment Proactive/Reactive/business ownership/entrepreneurship</li> <li>• Ethics, Morality and your career, an overview of how the Media operates censorship &amp; self-censorship/audience/working ethically/sustainable choices</li> <li>• Representation online/ Social Media networking How, why, what and when? Consistency of brand, Effective and appropriate copy, quality of images</li> <li>• CV writing skills/Letter of introduction writing/application writing skills</li> <li>• Costing work/funding- writing applications and bids/budgeting Evaluating projects and clients/managing clients and employers</li> <li>• Further study</li> <li>• Postgraduate courses, Teaching courses</li> </ul>
Practice 6	60	<p>The nature of this module is definitive. It demands that students reflect upon and recognise strengths, areas of specialist interest and ability,</p>

		<p>identifying a defined photographic practice to explore, develop and refine conceptually, technically and contextually. There will be a component in the module that demands that students research and navigate the placement of their practice in a cultural and professional context to determine outcomes for their future progression as a photographer.</p> <p>The identification of an area of specialist practice, the development of a self-initiated project through a Statement of Intent will enable focused progression of an individual and defined photographic practice. The production of a portfolio, online presence and a final exhibition will be resolved to a high professional, technical, conceptual and contextual standard.</p> <p>Activities and content may include:</p> <ul style="list-style-type: none"> <li>• Evaluative peer seminars</li> <li>• Continued refinement of use of traditional and digital camera equipment</li> <li>• Refinement of digital and darkroom print</li> <li>• Development of exhibition planning and resolve</li> <li>• Working collaborative with others to create visual outcomes</li> <li>• Web site design and creation of promotional materials</li> <li>• Engagement with National online graduate exposé</li> <li>• Creation of a professional portfolio</li> <li>• Planning, design and exhibition of work through degree show</li> </ul>

## Course Composition & Delivery:

The course is modular and is managed on a two-semester schedule totalling 31 weeks of tuition. The academic year begins in September and ends in June.

**Level 4:** the course defines Level 4 as induction and core generic skills acquisition

**Level 5:** applies the new skills gained at Level 4 in a range of appropriate contexts

**Level 6:** students specialise through individual learning programmes

The total length of the academic year is 33 weeks (including enrolment, induction and a research week), with breaks for Christmas, Easter and Summer.

Students will have access to college resources (studios, library, workshops, social areas) on weekdays during normal working hours and later on some days and at certain times of the year. Students may also have access to some resources during vacations, and current information on this is available upon request.

Students are awarded 'credits' for the successful completion of a module, totalling 120 in each academic year. A single credit is defined as ten hours of study, so a 20-credit module requires a total of 200 hours of study. A student must successfully achieve 120 credits. 1200 hours of study in total.

The percentage of contact time devoted to differing learning environments depends on the individual module content, but the course seeks to use a wide variety of teaching methods wherever possible. Examples of teaching methods include process inductions and workshops, demonstrations, lectures, presentations, master-classes, online learning activities, tutorials and seminar discussion groups.

Assessment is almost exclusively made by submission of coursework in the form of a portfolio, although written essays and reviews, plus presentations, are also used. There are no timed, written examinations.

## Blended Learning

Hereford College of Arts is completely committed to face-to-face learning and the vast majority of our education takes place on campus in our workshops, studios, library, lecture rooms.

We do use online learning when it's the best mode of delivery, for example an international artist delivering a live stream from their studio or where a student has an agreed exceptional circumstance that warrants online learning in that instance.

## Typical Delivery Plan

The tables below indicate the typical delivery schedules for the programme for each pattern of attendance. The team reserves the right to re-organise the delivery of modules per semester, in accord with resource availability and student requests (which will be accommodated where feasible).

### Payment, Service Delivery & Performance Arrangements:

- If the tuition fee is paid to the College via the Student Loans Company, it will be paid in 3 instalments – 25% in term 1, 25% in term 2 and 50% in term 3.

- Any of the additional costs (see additional costs section) are collected via an online secure payment system.

## Additional Costs

Additional costs are directly related to your study but exclude accommodation and student's personal living costs. Further information about halls of residence and other accommodation available in Hereford is available on our website.

The courses at HCA have been designed to minimise the impact of additional costs; some trips and materials will be fully funded by the college or heavily subsidised. However, typically, a student will choose to spend around an additional £250-£900 in the first year, £250-£500 in the second year and £450-£750 in their final year, depending on the scale of work and materials chosen or other related costs.

Students spend different amounts depending on the areas in which they specialise and individual choices. We appreciate that not all students will be able to invest the same money in their work, and staff assessing it will not judge work by the cost of materials or other resources.

The college shop stocks specialist materials at competitive prices and digital equipment can be loaned from the media stores at no extra cost to students.

Students on all courses will also have the chance to take part in optional trips that require additional payment. Non – attendance on the trips will not incur assessment penalties, though trips are designed to help students develop their practice. There is an optional annual cross-course overseas residential trip. In the 2023-24 academic year, the trip was a four-day visit to Paris at a cost to students of £425. This fee included a shared dorm room and all travel costs from Hereford to Paris including Eurostar tickets.

Places on the optional trips are allocated on a first-come, first-served basis.

On completion of Level 6 (the final level of study), some students also choose to take part in an optional residential trip to London for one of the various graduate showcases (for instance New Designers). Decisions about these showcases are made by the college with students on an annual basis and costed according to differing showcase fees, numbers of students taking part and ambition of display. Students are required to contribute to financing this activity and are encouraged to take part in fundraising events and grant applications.

The College is committed to ensuring that students considering studying at HCA are fully aware of the possible additional costs.

Following enrolment, students that face genuine financial hardship may apply to the College Hardship Fund.

## Average Cost Breakdown

This table is an estimate of the minimum costs a typical student may face during the course.

The nature of creative study means it is difficult to be precise with material costs. We encourage students to source sustainable materials and recycle where they can however students are free to invest in additional resources pertinent to their emerging practice.

Unless specified the cost listed refers to the whole three-years of study.
